

Create Your MAX/Center Account

Creating your MAX/Center account allows you access to all of the tools and tech RE/MAX has to offer! It's the first step to ensuring you're getting the most out of your RE/MAX membership.

Register for Your MAX/Center Account

STEP 1 Navigate to <https://www.remax.net/register>.

STEP 2 Enter the **email address** you use for RE/MAX.

STEP 3 If the email is on file, you will receive an email to that address with instructions on how to register. Locate the email from donotreply@remax.net with subject **Welcome to RE/MAX!**

You may need to check your junk or quarantine folders within your email.

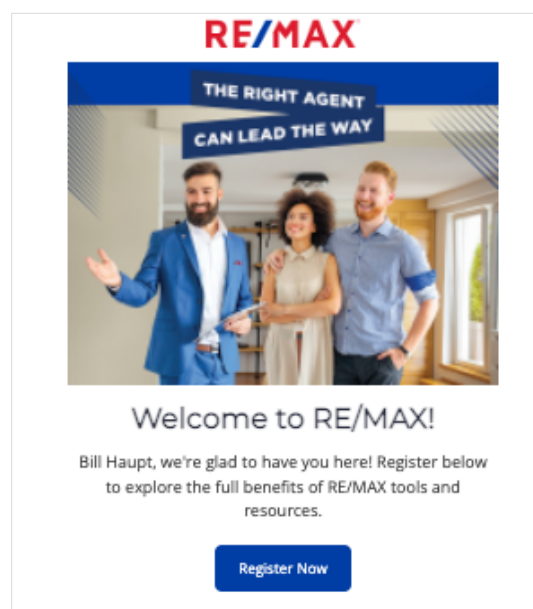

If you receive a red notification stating the specified user has already registered, use the **Forgot Password** functionality to reset your password and gain access to your account.

STEP 4 Open the email and click **Registration**.

STEP 5 A new browser tab should open; **follow the instructions** on the screen to create your account.

STEP 6 Bookmark <https://www.remax.net> for easy access in the future.

The @remax.net address you chose during your account creation will be your login username and the password you created will be the password to access your account.

For support, now or future, contact RE/MAX Product Support.
